

# RAIZA ESCOBAR

*Software Developer*

## PROFILE

Enthusiastic and proactive Web Developer, with experience in Banking, specialized in International Trade. I have always been interested in the technology industry and that is why I decided to start a new career in IT. I started doing online courses on my own and I liked it more and more, so I decided to enroll in IronHack to do the Full Stack Development Bootcamp, where I improved my knowledge to become a Frontend Developer through React, JS, CSS, Html. Right now, I am very proud of my progress and I am looking for ways to add value as a Web Developer and be part of a team to learn and grow together.

## EXPERIENCE

### INTERNATIONAL TRADE SPECIALIST

Financial advisor in international trade to small and medium companies:

- Customer acquisition and linking
- Training for clients and managers
- Study and analysis of Foreign Trade operations
- Monitoring, control and management of commercial activity

CAIXABANK  
2016-2020

### TREASURY PROCESSES TECHNICIAN

Working as a Back Office Assistant in an important consultancy company. My main task was:

- To give support to the financial department.
- Management of Shareholders' Meetings
- Introduction and search of prices for the acquisition of securities in transfers and changes of ownership.
- Foreign transactions validation (Spot, FX Swap)
- Tally with counterparties and settlement (Delivery of shares, by differences..)
- Cancellation management, pledge of products.
